

## RFID Technology for Mechanical Seals

### ViewIn Allows for Easy Seal Identification and Recordkeeping in Web/Mobile App

Select Chesterton mechanical seals can be enhanced with ViewIn™ Chesterton Technology. This technology is embedded in the seal gland and contains a unique serial number.

Seals upgraded with ViewIn Chesterton Technology provide plant maintenance staff with the ability to scan equipment quickly, using an easy-to-use web/mobile app to identify the type of Chesterton seal, as well as obtain installation instructions, pressure test reports, and other helpful data.

ViewIn-enabled seals can be safely scanned while equipment is in operation.\*

### Chesterton S10/S20 Seals with ViewIn Technology

- Quick, Convenient Seal Identification
- Seal Recordkeeping
- Web and Mobile Access

### Information Hosted in the ViewIn app under "My Devices"

- Mechanical Seal Description
- Serial Number
- Product Item Number
- Seal Construction Materials
- Individual Seal Test Report
- Installation Instructions
- Device Drawings
- Supplementary Items

### How It Works

See how easy it is to start using ViewIn, watch videos and get detailed instructions at: [viewin.chesterton.com](http://viewin.chesterton.com)
